- Statewide job postings

Job Seeker Services

- Employment / Career advising
- Training & education resources
- Job fairs & recruitment events
- Job search resources

Youth Services

- Career exploration / Career pathways
- Job search assistance
- Paid work experience

OMJ's On-the-Job Training Leads to Full-Time Position

Denzel graduated from C-TEC's Dental Assisting Program in May of 2020, during the height of the COVID-19 pandemic. Due to the pandemic, he was unable to participate in an internship before he graduated. OhioMeansJobs (OMJ) set up a paid work experience site for him at Moundbuilders General Dentistry office through OMJ's youth/young adult **Comprehensive Case Management Employment Program (CCMEP)**. Denzel was able to enhance vital employment skills while working hands-on in the dental office.

Moundbuilders General Dentistry was really impressed with Denzel's work ethic and wanted to hire him. Due to him being a new dental assistant,

he needed additional training for specific duties. OMJ set Denzel up with some On-the-Job Training (OJT) and he began his full-time employment with Moundbuilders General Dentistry on October 1st of 2020. The On-the-Job Training program helps offset an employer's training costs for hiring eligible job seekers. Employers who participate in the OJT program can be reimbursed up to 50% of the eligible trainee's wage during the established training period. Denzel's OJT was successfully completed March 2021. In addition, OMJ offers an employment incentive for eligible customers who obtain and retain employment of at least twenty hours per week. Denzel was able to receive the employment incentives which help offset the cost of obtaining and maintaining employment. Denzel successfully completed the CCMEP program and is now receiving follow up services to ensure his continued success on the job.

"I really liked the work experience program because I was able to experience a few different work sites, each with a different type of job. I thought I was going to be doing my work experience at another company, not in the dental field. I wasn't expecting to get paid at all. The work experience was only supposed to be about two weeks, but I was asked to stay longer. I was offered a full-time job, which was totally unexpected. I thought I was working there for some experience. I am also proud to say that I recently got a raise! They have even offered to pay for advanced training for me to become an EFDA, (Expanded Functions Dental Auxiliary) if I would like to further my dental training and education. I am really grateful for Ohio Means Jobs and the work experience program."

– Denzel

JULY 1, 2020 – JUNE 30, 2021

6,097

The total number of individual visits to OMJ for employment-related assistance. This includes multiple visits by individuals.

485

The total number of first-time visitors to OMJ.
