Indicates the SUTQ rating a program has received.

Step Up to Quality is a voluntary rating system designed to recognize the efforts of licensed early care and education programs. These programs take steps toward incorporating education with daycare. The steps indicate the amount of education, curriculum criteria and professional development required for their program. This is not a rating recommendation system. Licking County does not rate daycare providers on their quality of care. This system simply means that the provider has met step up to quality program standards initiated by the state of Ohio.

Information regarding Step up to Quality can be found here...

<http://www.earlychildhoodohio.org/index.stm>

Information regarding daycare center and provider inspections can be found here...
